

POINT OF COMFORT.

"MARSE CHAN" AND HAMPTON'S VOICISTS DELIGHT AUDIENCES.

The Yale Glee Club plays an Engagement for Neptune—Light-House News—Huntington's Trip.

(Correspondence of the Richmond Dispatch.)
Old Point Comfort, Va., March 28.—Those who were fortunate enough to see the two "Yale" boys, who were singing in the balcony of the Hygeia Hotel, enjoyed a rich treat in listening to Dr. Thomas Nelson Page, who gave a dialect reading from "Marce Chan" and "Plasky's Turnment." Dr. Page can congratulate himself on his success, as he and Miss Thursty are the only persons who have been able to fill the hall since it was opened some ten years ago. The audience was so large that the two boys were not points in the Doctor's stories, and followed him with rapt attention during his two hours' talk. At the close of the entertainment Dr. Page went into the club room at the Fort, where the usual weekly reception was being held, where he met all the prominent people of the city, and together with a goodly number of his audience, who were in attendance.

The sweet-singing singers from the Hampton Normal School came over in goodly number last Sunday evening and gave a concert in the pavilion before a large audience. The program consisted of quaint plantation melodies and camp-meeting hymns in fine style, and were rendered with a large repertoire of songs for the benefit of the school.

A VICTIM OF THE GRIP.
Lieutenant Willoughby Walker, Second Artillery, in charge of the chemical department at the Fort, was taken ill and was obliged to give an experimental lecture on explosives last Thursday evening for the benefit of the Young Men's Christian Association. He was unfortunately taken ill by the grip, and the lecture was postponed until next week.

The steamer City of Atlanta, of the Old Dominion Line, arrived here from New York yesterday with fifty odd young gentlemen, comprising the Yale Glee Club and their friends. The northeast gale, which is now playing an engagement with the city, was not a very pleasant one, and followed them clear to the dock, where they were met by several platoons of their friends, and the ship was crowded with people. There was not a hall a dozen in the party who did not pay tribute to Neptune, and not one of them who did not follow the trip.

At the officers' club last evening, which was largely attended, and to-night will entertain the city, will be followed by dancing until 8 o'clock. The young gentlemen have been coming here on their Easter trip for some time, and their visit is always looked forward to with much pleasure. They leave to-morrow for Washington, where they will give an entertainment Monday evening.

SOCIAL MOVEMENTS.
Miss Willie Schwarzwald, of Brooklyn, a bright and attractive young lady, who has been attending the school at the Hygeia, returned home Wednesday, much to the regret of her many friends.

Miss Frank Gray, of Portland, Me., is visiting her cousin, Miss Alice Frank, daughter of the Commandant, Miss Frank being a member of the Young Men's Christian Association. She is a very charming young woman, and received a warm welcome from her old friends.

Mr. Sackett, of Washington, daughter of the late Inspector-General Sackett, arrived here Monday on a visit, and is the guest of Miss Carrie Stone, of the Garrison Hotel.

Mr. Lieutenant Van Dusen gave a tea in honor of her guest, Miss Farnsworth, of New York.

Miss Yeaman, of Norfolk, is here on a visit, the guest of Miss Maudie Rodell, daughter of the late Major Rodell, and is a very charming young woman, and received a warm welcome from her old friends.

Mr. Colgate Hayne, vice-president of the Union Pacific railway, and wife arrived from New York yesterday, and are the guests of Mr. J. A. Hubbell, of Michigan, who was prominently before the public as secretary of the National Republican Committee, and who, ten years ago, arrived here from Washington with his daughter on Tuesday.

PERSONAL AND GENERAL.
Mrs. S. E. Egerton, of Baltimore, is here on a visit, the guest of Mrs. James A. Watkins.

Miss Mary Allen, of Norfolk, is visiting her sister, Mrs. John B. Kimball.

Mr. J. A. Hubbell, of Michigan, who was prominently before the public as secretary of the National Republican Committee, and who, ten years ago, arrived here from Washington with his daughter on Tuesday.

Mr. John B. Kimball, United States Marshal of the district, arrived Thursday morning, accompanied by his daughter and Miss Harriet Kimball.

The Baltimore Decorative Art Society had a handsome display on sale of and gave a lecture on the history of the hotel on Wednesday and Thursday.

The new steamer Washington, Captain Davis, leaves Norfolk Sunday night for Washington on her regular trip.

Mr. John B. Kimball, United States Marshal of the district, arrived Thursday morning, accompanied by his daughter and Miss Harriet Kimball.

The recent heavy rains have flooded the parade grounds and suspended the drill for the present, much to the delight of the boys.

Some of the young ladies have requested the Yale boys to sing "A Life on the Ocean Wave" to-night, but they have refused to comply.

A FLOURISHING ALLIANCE.

Mr. Irving's sudden death nearly kills his wife—Public School Closed.

ROBBED NEPHEWS CARRIED BACK.

WATER CROPS.

THE WEEKLY BULLETIN FOR VIRGINIA ENDING MARCH 28TH.

Excessive Rains and Heavy Snow—Nearly All Farm Work Stopped—Fair Weather and Sunshine Needed.

(Special telegram to the Dispatch.)
LYNCHBURG, Va., March 28.—The "Virginia Weekly Weather-Crop Bulletin," based on reports from voluntary crop correspondents throughout the State, published by the United States Signal Service, at the central office, Lynchburg, Va., March 28, 1891, is as follows:

SUMMARY.
The reports of the past seven days show that there has been generally very little rain, and the weather has been generally sunny and clear. The precipitation has been generally light, and the weather has been generally sunny and clear.

SOME PROGRESS MADE IN THE SOUTHWEST.
Some progress has been made in the Southwest in ploughing, but the rains have again put a stop to all farm-work. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Lynchburg: Precipitation 1.75 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Baltimore: Precipitation 1.90 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Salem: Precipitation 1.31 inches in three days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Christiansburg: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Richmond: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Harrisonburg: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Farmingdale: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
New York: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Washington: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Baltimore: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Salem: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Christiansburg: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Richmond: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Harrisonburg: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.

REMARKS OF SPECIAL CORRESPONDENTS.
Farmingdale: Precipitation 1.40 inches in four days. Normal amount of the week would be about 0.54. The weather has been generally sunny and clear, and the crops are generally well.
